PROFESSIONAL SUMMARY

Mechatronics Engineer and Unity Game Developer with professional experience developing gameplay systems, user interfaces, immersive applications, and interactive experiences using Unity and C#. Experienced in implementing game mechanics, player interactions, progression systems, physics-based behaviors, reusable components, and visual and audio feedback.

Background includes virtual reality, augmented reality, multiplayer environments, API integration, 3D asset implementation, technical troubleshooting, and cross-functional collaboration. Strong analytical and problem-solving skills, with the ability to learn new technologies, debug complex systems, and translate technical or conceptual requirements into engaging and intuitive player experiences.

Interested in contributing to game development projects involving gameplay programming, game systems, physics, engine technologies, and interactive product development.

EDUCATION

Generation México | Mexico City, Mexico
Unity Developer Program

May 2026 - Aug 2026

National Autonomous University of Mexico — UNAM | Mexico City, Mexico
Bachelor's Degree in Mechatronics Engineering

Jun 2018 - Jun 2023

PROFESSIONAL EXPERIENCE

Banco Actinver | Mexico City, Mexico

Jul 2024 - Mar 2026

Spatial Computing Engineer / Game Programmer

- Developed immersive educational experiences using Unity and C#, transforming financial concepts into interactive gameplay mechanics.
- Programmed gameplay systems, user interfaces, player progression, quizzes, feedback systems, and physics-based interactions.
- Created reusable components and collaborated with multidisciplinary teams to deliver functional projects within deadlines.

Infomedia | Mexico City, Mexico

Feb 2024 - Jul 2024

Analista de Datos / Consultor de Datos Jr

- Supported database creation, modification, and querying using SQL.
- Developed reports and queries for business areas and audit processes.
- Worked with Hadoop, Hive, Impala, Databricks, AWS, Google Cloud, Git, GitHub, and Jenkins.

Brita Inteligencia Artificial | Mexico City, Mexico

Aug 2023 - Jan 2024

XR Technical Designer

- Developed an AI-powered digital human application in Unity.
- Integrated voice input, server communication, audiovisual responses, and avatar behaviors.
- Implemented user feedback systems and resolved issues involving Unity, WebGL, audio, and API communication.

TECHNICAL SKILLS

Unity | C# | Gameplay Programming | Object-Oriented Programming | Game Mechanics | Physics-Based Interactions | UI/UX in Unity | XR/VR/AR | UdonSharp | Blender | 3D Asset Integration | API Integration | Git/GitHub | Debugging | SQL | AWS | Google Cloud.

PROJECTS

Banco Actinver | Mexico City, Mexico

Jul 2025 - Mar 2026

Spatial Computing Engineer / Game Programmer

Inflation Paradox ([Link](#))

- Developed VR experiences in Unity focused on financial education.
- Programmed interactions, quizzes, enemy behaviors, progression systems, timers, health, and player feedback.
- Integrated physics, colliders, triggers, animations, particles, audio, and interface systems.

Game Work Jam — Documentary Heritage Preservation | Mexico City, Mexico

Jun 2025 - Aug 2025

Unity Gameplay Programmer

Pitz: The Game of the Gods ([Link](#))

- Programmed gameplay mechanics and game-state systems in Unity.
- Integrated assets, adjusted gameplay, resolved technical issues, and supported delivery of a functional prototype.
- Collaborated with a multidisciplinary team using Git and GitHub.

PAPIME UNAM | Mexico City, Mexico

Nov 2023 - Jun 2024

Unity XR Developer / Udon Programmer

VRChat Laboratory Simulator ([Link](#) / [Articulo](#))

- Developed multiplayer interactions in Unity using Udon and UdonSharp.
- Implemented synchronized objects, animations, events, and experiment sequences for up to 40 simultaneous users.
- Supported compatibility across PC, mobile devices, and VR headsets.

Proyecto personal | Mexico City, Mexico

Oct 2022 - Dec 2022

Unity Generalist Developer

Apolodoro's Library ([Link](#))

- Developed a PC adventure game inspired by Theseus and the Minotaur.
- Programmed exploration, combat, enemy encounters, missions, level progression, and a boss battle.
- Implemented first-person and third-person perspective switching.

Universo RE-BOOT | Mexico City, Mexico

Mar 2022 - Mar 2022

Jr. QA tester

Galileo ([Link](#))

- Performed manual and functional testing for an educational video game.
- Identified and documented gameplay, usability, interaction, and user-experience issues.
- Provided feedback to improve stability and clarity for the target audience.
